CLAWSON ROOT CANALS

J. Brigham Clawson, DMD

Clawson Root Canals is a dental practice dedicated exclusively to endodontic care, focusing on **root canal therapy and root end surgery**. By referring you to our office, your dentist has shown their concern that you receive the finest endodontic care possible.

Dr. Clawson is a Texas licensed doctor of dental medicine and has spent the last 5 years dedicating himself to perfecting his craft of root canals. He is a resident at Texas A&M School of Dentistry Department of Endodontics during the week, where he trains to become an endodontic specialist in the very near future. He utilizes state-of-the-art technologies such as digital x-rays, microscopes, and modern disinfection devices. The latest advancements in our practice include laser-activated endodontic irrigants, cone-beam computed tomography (CBCT) imaging as well the use of bioceramic sealers and root repair materials.
